

### Basis:

**Commitment for implementation of relevant goals for sustainable development of the United Nations**

### Sustainable Products and Processes

- ✓ Chemical free disinfection of process- / drinking water by own ae-aqua-products
- ✓ Distribution of sustainable actors by proprietary Shape Memory Components
- ✓ Significant R&D-expenditure for sustainable products and processes
- ✓ REACH/ROHS conformity

### Governance, Health, Equal Rights and Education

- ✓ Zero-Tolerance-Policy regarding discrimination, corruption, bribery etc.
- ✓ Respect for human rights of all employees
- ✓ No forced/child labor
- ✓ Above average training quota
- ✓ Observance of statutory minimum wage
- ✓ Certified occupational health and safety management DIN ISO 45001:2018

### Continuous Improvement of Resource Efficiency

- ✓ Hazardous waste reduced by approx. 55%\*
- ✓ Product related packing consumption reduced by approx. 40%\*
- ✓ Participation on various sustainability projects
- ✓ Certified environmental management according to DIN ISO 14001:2015

### Continuous reduction of CO<sub>2</sub>-emission

- ✓ Use of all available technologies (cogeneration unit, photovoltaic system, combined heat and power, LED etc.) for CO<sub>2</sub>-reduction
- ✓ CO<sub>2</sub>-Emissionen in relation to added value by approx. 50%\* reduced
- ✓ Significant Investments in building technology and production processes for further reduction of CO<sub>2</sub>-emissions
- ✓ Certified energy management according to DIN ISO 50001:2011

### Continuous improvement in the use of the resource water

- ✓ Recycling of approx. 95% of the process water
- ✓ Water consumption reduced by approx. 50%\*
- ✓ Product related consumption of chemicals reduced by approx. 50%\*
